
Online School of Network Sciences

Affordable and Customizable Training for Small Service Providers

We combine Data Networking and Wireless Networking fundamentals to ensure that you're prepared to handle any situation.

Take the Tests First

Take the Initial Network Skills Assessment (INSA) to pass out of subjects you've already mastered and focus on what you need to learn.

Online Instruction

No travel expenses and you can complete courses on your own schedule. Every class has specialized video lectures and lab exercises.

Internal Certification

We'll train you as an administrator and create a program targeted to your company's needs.

We understand the needs of a rural network provider and have created these courses with YOU in mind.

Take a look at our Program Administrator Guide:
